Deliverable 1 completion and approval

Project: Café Aurora website
Client: Café Aurora, represented by Lucy Rivers
Freelancer: Alex Vega, web design and development
Conversation date: November 5, 2026
Channel: email conversation from the fictional case

Deliverable 1: Planning and initial UI design

Amount for this stage: USD 180, equal to 30 % of the USD 600 project. This document covers only the planning and design stage.

Alex Vega, freelancer

Hi Lucy. I shared the wireframes, the navigation map and the responsive visual design for the five agreed sections of the Café Aurora website. The design covers mobile and desktop layouts and the placement of the WhatsApp button.

I have already applied your feedback on the menu layout and colors. With this latest version I complete the planning and initial UI design deliverables. Can you confirm that you reviewed them, that you are happy with them and that we can close this first stage?

Lucy Rivers, client

Hi Alex. I reviewed the wireframes, the content map and the mobile and desktop designs. The layout and color changes are as we agreed. I am happy with the delivered work and I confirm that deliverable 1, Planning and initial UI design, is complete and approved on my side. I have no pending corrections for this stage.

You can send me the USD 180 payment request for this first deliverable. I have not made that payment yet.

Alex Vega, freelancer

Thanks for confirming. The first stage is closed with your approval. I will prepare the payment request for this deliverable. The second stage will start after its payment is confirmed.

Functional website development, the WhatsApp integration, multi-device testing and the final launch are still pending in the next stages. We are not closing the whole project or stating that it has been paid.

About this attachment

This conversation and its participants are fictional and exist to test Trato. The file supports the approval of the first deliverable within the sample case; it is not a receipt or a PayPal payment confirmation.
