Client request: add an online store

Project: Café Aurora website
Client: Café Aurora, represented by Lucy Rivers
Freelancer: Alex Vega, web design and development

Date: November 5, 2026, 11:00 AM
Subject: We want to add a store to the website

Lucy, client

After confirming the five-section website, we want to add something that was not in the agreement: a small store to sell bagged coffee and accessories.

We need to load ten products, show their photos and prices, let visitors add them to a cart and pay with PayPal. We do not need automatic inventory or customer accounts. This request is in addition to the original website; the five sections are still needed.

We can spend up to USD 240 more and move the website delivery to November 25, 2026. Before starting the store we want to review an addendum describing what it includes and its price. We have not accepted any proposal for this extra work yet.

Alex, freelancer

I will compare this request with the initial agreement and prepare a proposal. I will not treat the store as included in the original USD 600, and I will not start it before we review and accept the addendum.
