Subject: Changes to the first store proposal

Lucy, client

I received addendum v1 to add the store with ten products, cart and PayPal, for an extra USD 240 and delivery on November 25, 2026. I would like to adjust that proposal before accepting it.

Five products are enough to start. Let's keep the cart and PayPal checkout, without automatic inventory, user accounts, coupons or product variants. We will provide the five final photos, descriptions and prices.

Can we reduce that scope to an extra USD 180 and deliver everything on November 23, 2026? The original five-section website stays as agreed. The original price is still USD 600; I am not asking you to absorb the store into that amount.

Please prepare a new version of the addendum. I have not accepted or paid v1. I will review the new version with these changes before giving my approval.
